

Security and Safety for Credit Unions and other Financial Institutions

The financial services sector is as highly-regulated as it is highly-targeted for criminal activity, including theft, fraud, and vandalism. CAMACC's advanced video surveillance solutions help financial institutions meet and exceed regulatory requirements while at the same equipping safety and security experts with powerful KYC, AML and fraud-prevention tools.

Financial Institutions Face Increased Performance Pressures

Our powerful cameras and world-class software help credit unions and other financial institutions like Money Mart successfully manage a multitude of security operations – in real time. But CAMACC high-definition video surveillance offers much more than just cameras in the vault...

- Prevent theft
- Increase security and protect employees and customers
- Reduce insurance premiums by exceeding standards of risk and loss
- Integrate ATM data with synchronized video

Innovative, Industry Leaders

We proudly support credit unions, banks, and other financial service institutions who rely on our surveillance systems to securely and reliably connect their branch operations to their corporate headquarters and transaction processors, helping them keep employees, customers, and assets safe and secure. Likewise, to meet significant regulatory requirements, and to reduce insurance premiums by meeting and exceeding standards of risk and loss prevention.

Know Exactly What Is Going On In Your Vaults, ATM Sites, And Teller Windows

CAMACC's core video solutions offer fully-integrated site management tools that enable seamless video monitoring, digital recording, and sophisticated video analysis by linking video with other information, including audio, ATM transactions, and other data.

Get Ready To Be Surprised At What CAMACC Can Help You Do...

- Ultra-clear, high definition, facial recognition – the best on the market
- Ultra-clear, high definition video of customer transactions in store
- Advanced optical character recognition (OCR) of license plates in parking lots and drive-through banking lanes
- Detect and deter cashier-related shrinkage by identifying specific transactions with video footage
- Link specific ATM transactions to video footage
- Industry-leading innovations with subtle, hidden camera panic buttons
- View video footage locally or remotely, from single stores to massive, multiple locations, significantly reducing site-to-site travel
- And much, much more – we love a challenge; what does your business need to succeed?

Features

- Much higher resolution image recording than elsewhere in the industry
- CAMACC DVRs are hybrid, allowing for simultaneous recording of both analog and high-definition, megapixel sources
- Expandable up to 32 channels per DVR (combined high-definition, megapixel and analog)
- Up to 20 megapixel, high-definition camera integration and support
- Enterprise management – health monitoring, system configurations, and user permissions
- Using VIGIL™ Central Management (VCM) software, the system is scalable and flexible (simultaneous management of unlimited CAMACC DVRs), and can be remotely managed
- Export to all media types – internal HD/DVD and external USB and NAS with unlimited storage
- Advanced Loitering/Dwell alarm – automatically triggered when people remain in a specified area for a set period of time
- Sweep log hardware/software to reduce insurance liabilities by tracking due diligence and supporting guard tour duties
- Comprehensive POS and ATM integration – database integration with query and reporting engine

“CAMACC has been our vendor of choice for all our CCTV needs for almost 10 years. The quality of service we receive from CAMACC is excellent; from the executives, the national sales team and the operations team.”

Alastair Milne
