

Security and Safety for Gas Stations and Heavy Industry

CAMACC Systems offers the most powerful and versatile video recording technology in the market today. Gas stations – especially ones with convenience stores – are often targeted for criminal activity, putting employees and customers in danger, and negatively affecting business revenue.

CAMACC's advanced video surveillance solutions are exclusively designed for scalable, multi-user and multi-site gas station locations. Our powerful cameras and world-class software help gas station owners successfully manage a multitude of security operations – in real time. But CAMACC high-definition video surveillance offers much more than just cameras at the pump...

- Increase security and protect employees and customers
- Prevent theft
- Reduce vandalism and loitering
- Increase operational efficiency

Innovative, Industry Leaders

We proudly support Suncor (Petro-Canada) at 1,800 locations, Imperial Oil (Esso) at 1,000 locations, and both Shell and Chevron, where CAMACC is the provider of choice for all CCTV equipment at over 7,500 locations. CAMACC clients rely on our high-definition surveillance systems to securely and reliably watch over their branch gas stations and convenience stores, and to help them safely speed millions of customers on their way.

Know Exactly What Is Going On In Your Stations

CAMACC's core video solutions offer fully-integrated site management tools that enable seamless video monitoring, digital recording, and sophisticated video analysis by linking video with other information, including audio, Point-Of-Sale (POS), ATM, and other facility data.

For example, CAMACC allows you to run detailed queries on your POS transactions based on date, time, camera, transaction type, value, item code, cashier, or receipt number.

Get Ready To Be Surprised At What CAMACC Can Help You Do...

- Ultra-clear, high definition, license plate recognition – the best on the market
- Ultra-clear, high definition video of customer transactions in store and car wash bays
- Advanced optical character recognition (OCR) of license plates
- Automatic shut-off of gas pump if cameras disturbed or down
- Detect and deter cashier-related shrinkage by identifying the tell-tale patterns of POS exceptions like “sweet-hearting”
- Link specific ATM transactions to video footage
- Industry-leading innovations with subtle, hidden camera panic buttons
- View video footage locally or remotely, from single stores to massive, multiple locations, significantly reducing site-to-site travel
- And much, much more – we love a challenge; what does your business need to succeed?

Features

- Much higher resolution image recording than elsewhere in the industry
- CAMACC DVRs are hybrid, allowing for simultaneous recording of both analog and high-definition, megapixel sources
- Expandable up to 32 channels per DVR (combined high-definition, megapixel and analog)
- Up to 20 megapixel, high-definition camera integration and support
- Enterprise management – health monitoring, system configurations, and user permissions
- Using VIGIL™ Central Management (VCM) software, the system is scalable and flexible (simultaneous management of unlimited CAMACC DVRs), and can be remotely managed
- Export to all media types – internal HD/DVD and external USB and NAS with unlimited storage
- Sweep log hardware/software to reduce insurance liabilities by tracking due diligence
- Comprehensive POS and ATM integration – database integration with query and reporting engine

“Shell was looking for higher quality images and better data storage solutions that would accommodate future growth and adaptability. The technology found in the CAMACC VIGIL DVR and HD viewer provides a solution that meets - and in some cases exceeds - our requirements.”
