

Security and Safety for K-12 and Post-Secondary Education

CAMACC Systems offers the most powerful and versatile video recording technology in the market today. Across North America, school administrators and leaders at every level are looking for reliable, cost-effective solutions to campus problems like fighting and bullying, gang activity, theft, graffiti, drugs, trespassers and unwelcome visitors, and secure student drop-off/pick-up.

CAMACC video surveillance offers much more than just cameras in the hallways...

- Protect students and faculty
- Reduce graffiti and vandalism
- Ensure secure student drop off/pick up
- Comply with state/provincial and federal privacy legislation

CAMACC's 24-hour monitoring and recording system extends and automates the protection and safety net across all of the schools and infrastructure within your district, including athletic facilities, cafeterias, playgrounds, transportation centers and more.

Know Exactly What's Going On In Your Schools

CAMACC's core video solutions offer fully-integrated site management tools that enable seamless video monitoring, high-definition megapixel digital recording, and sophisticated video analysis.

CAMACC's VIGIL™ software allows for automated compliance with state/provincial and federal privacy laws, such as Canada's Personal Information Protection and Electronic Documents Act (PIPEDA). For example, automatically blacking out portions of camera images that detail neighboring properties outside of the school zone.

Get Ready To Be Surprised At What CAMACC Can Help You Do...

- Protect your students and faculty with 24-hour video monitoring and recording
- Control problem areas, where students are more likely to engage in negative behaviors like vandalism, smoking, fighting, or "bunking" (leaving campus without permission)
- Ensure efficient service and safety in cafeteria, library and other student services with user counting and automatic notification of administrators to ensure appropriate staffing levels are in place
- Visitor management with video and badging – ensure the right people are on campus at the right time
- Automatically count visitors entering your facilities to identify trends track usage with CAMACC's built-in analytics engine
- Monitor usage of remote areas, sensitive zones, or restricted premises and automatically notify administrators
- View video footage locally or remotely, from individual schools to district-wide, multiple locations, significantly reducing site-to-site travel
- And much, much more – we love a challenge; what does your school, university or college need to succeed?

Put CAMACC To The Test!

CAMACC Systems has years of experience, helping schools and school districts across North America to meet 21st century safety and security challenges. We love putting our experience and technology to the test, finding innovative solutions to big challenges, little challenges, and everything in between.

Features

- Much higher resolution image recording than elsewhere in the industry
- CAMACC DVRs are hybrid, allowing for simultaneous recording of both analog and high-definition, megapixel sources
- Expandable up to 32 channels per DVR (combined high-definition, megapixel and analog)
- Up to 20 megapixel, high-definition camera integration and support
- Enterprise management – health monitoring, system configurations, and user permissions
- Using VIGIL™ Central Management (VCM) software, the system is scalable and flexible (simultaneous management of unlimited CAMACC DVRs), and can be remotely managed
- Export to all media types – internal HD/DVD and external USB and NAS with unlimited storage
- Advanced Loitering/Dwell alarm – automatically triggered when people remain in a specified area for a set period of time
- Sweep log hardware/software to reduce insurance liabilities by tracking due diligence and supporting guard tour duties
- Comprehensive POS and ATM integration – database integration with query and reporting engine

Safety First!

CAMACC is annually compliant with PICS auditing, ISNetworld, and is P.O.S.T. certified.
